

Jeremy Graston

Front-End Design + Development

2495 Winona Ct. Denver, CO 80212

720.985.6694 | jeremygraston@gmail.com

Summary

Front-End Designer/Developer with 16+ years of professional experience in all things user interface. 10 years working within corporate and agency environments, the last 6 operating as a successful self-employed freelancer. Comprehensive expertise designing, developing, and testing web based applications tailored for a diverse set of user types, use cases, screen sizes, devices, browsers and platforms. Expertise in current and trending HTML/CSS/Javascript implementations including their relevant design-to-development and production workflows, e.g., preprocessors, task runners, build/deploy/integration frameworks, and version control methodology.

Professional Interests

User interface design and development for applications, games, film, consumer & commercial products. Problem solving, data visualization, product design & development, CAD applications, api & IoT technology.

Work Experience

Freelance, Front-End Designer + Developer

06/12 – present, Denver CO

- Educate clients on the state of their applications as it may relate to UX best practice, market application benchmarks, industry compliance, current state and status of different front-end execution strategies, and consistent digital experiences using scalable styleguide implementations.
- Participate as needed in all aspects of design and development building large and small applications for a wide range of client types — startup, non-profit, agency, gaming, publicly traded companies.
- Develop (and/or support existing) pixel perfect CSS styles, HTML markup, and Javascript based on visual mockups from design team or myself.
- Develop dynamic styleguides, themes, and production assets based on new or existing visual brand standards that accommodate larger development teams abroad and locally.
- Client roster includes: **Aetna, Vail Resorts, Cultivator, ServiceSource, Tack Mobile, EffectiveUI, DarkOwl, Spex, Blue Dot Solutions, CollegeInvest, Deloitte, Envysion, On3 Software, Welltok, Wildlands Restoration Volunteers.**
